Wholesale Hologram Overlay NSW | Premium New South Wales Holographic Overlay Supplier

Enhance Your NSW Driver Licenses with Transparent Hologram Security

Is your current driver license protection strong enough? Standard licenses can be copied, altered, or tampered with, leaving your organization exposed to serious fraud and reputational harm.
Once security fails, restoring trust becomes costly—not just financially, but legally too. Don't wait until it's too late.
Our transparent hologram overlay is specifically designed for New South Wales licenses, giving each card professional-grade security that's immediately visible and virtually impossible to counterfeit.

Key Benefits

- **NSW-Specific Authentication:** Precisely matches official NSW driver license standards with genuine holographic elements—making visual verification quick and reliable.
- **Powerful Counterfeit Protection:** Multi-layered holograms, detailed micro-text, and optically shifting imagery create barriers that counterfeiters can't realistically overcome.
- **Built to Last:** Made with premium, scratch-resistant PET material, ensuring your licenses remain clear, secure, and protected from daily wear, reducing replacement costs significantly.

Additional Specifications

Material	Premium PET film with anti-scratch coating
Dimensions	CR80 standard size (85.6 × 54 mm)
Holographic Elements	NSW emblem, micro-text, and dynamic optical shifts
Application Method	Heat lamination or adhesive bonding (tamper-evident)
Color Shift	Clear color changes under different viewing angles and lighting

Note: All specifications are standardized according to NSW driver license requirements.
